DETAILED ACTION

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 1, 2, 10 & 13 provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 17-19 of copending Application No. 10/779,852. Although the conflicting claims are not identical, they are not patentably distinct from each other because both applications contain a support member (airway adapter), light-emitting element (photo emitter), light-receiving element (photo receiver), and a particular respiratory flow path to be facially arranged below the nostrils. The scope of the sensor claims in the instant application is broader than that of 10/779,852.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Response to Arguments

3. Applicant's arguments, see remarks, filed 10/18/2004, with respect to the Dietz reference have been fully considered and are persuasive. The previous rejection of claims 1-10 has been withdrawn.

4. Applicant's arguments, see remarks, filed 10/18/2004, with respect to the drawings & claims 13-17 have been fully considered and are persuasive. The previous drawing objection/claim rejection has been withdrawn.

Allowable Subject Matter

5. Claims 3-9, 11, 12 & 14-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
